

GOVERNMENT OF ORISSA

Speech of
Shri Prafulla Chandra Ghadai
Minister Finance
in the
Orissa Legislative Assembly
on the occasion of presentation of
the Budget
for the
Year 2009-10

The 11th June, 2009

Hon'ble Speaker Sir,

At the very outset in the First Session of the Fourteenth Assembly, I would like to extend hearty congratulation to you, the Leader of the House, Hon'ble Chief Minister, Hon'ble Leader of the Opposition and all Hon'ble Members. I express my gratitude to the Leader of the House Hon'ble Chief Minister and all the Hon'ble Members for giving me this opportunity to present the full fledged budget for the Financial Year 2009-10 and hope to get unhesitant cooperation of all.

2. It is my good luck to present this budget again as Finance Minister in the Government led by Hon'ble Chief Minister Shri Naveen Patnaik. In the preceding years, it was a challenge for us to set right the deteriorating financial condition of the State. We had accepted the challenge with all humility. We had faced all adverse situations with patience and sincerity. We could be able to move forward the State finance in a more disciplined way with the help and co-operation of the people. The way the people of the State reposed faith in the able leadership of Shri Naveen Patnaik in the last General Election, I express my gratitude to them through you.

3. As you know, Elections to both the State Assembly and Lok Sabha were held in the month of April, 2009. Therefore, the State Government had presented a Vote on Account for the first four months of Financial Year 2009-10 in the Legislative Assembly and got approval of the House. Hence, I present the full fledged budget for the Financial Year 2009-10 today.

4. The State Government is sincerely committed to the economic development of the State and to provide social justice to the people as well as to create a society free from hunger in the State. The State Government has been trying always to bring smile in the faces of the poor and to achieve the over all development of the State.

5. The scope to raise revenue as per our requirement is very limited in a developing state like Orissa. Despite this, augmentation of revenue and proper utilization thereof can pave way for progress of the State. By using the available resources, focus has been given in the budget to the development of education, improvement in the quality of health services, development of agriculture and allied services, expansion of irrigation, improvement of water supply and sanitation services, development of infrastructure, welfare of the aged, disabled persons, women, ST & SC people and other economical weaker sections of the society and also to complete the incomplete projects on priority basis.

6. The financial condition of the State can be assessed from the vital fiscal indicators like revenue deficit, fiscal deficit and primary deficit. In the past years since the receipts were less than the expenditure, the State was faced with continuous revenue deficit and fiscal deficit. We had to repay higher amount of loan and interest thereon continuously from the Financial Year 1984-85 till 2005-06. In the Financial Year 1999-2000 the revenue deficit of the State was at the level of Rs.2574.20 crores. With the aim of bringing about improvement in the deficit fiscal situation of the State, the State Government in the last few years had taken some expenditure rationalization and revenue generation measures under the fiscal reform programme. As a result, at the end of financial year 2005-06, the State achieved revenue surplus of Rs.481.19 crore for the first time after a gap of 22 years. Not only that this revenue surplus scenario continued in subsequent years.

7. It needs no mention that there has been much improvement in the fiscal situation of the State due to the sincere and disciplined efforts of the Government. Consequently, from 1st December, 2004 the Government have neither resorted to Ways and Means Advance nor Over Draft from the Reserve Bank of India. Letter of Credit is being issued to the concerned Departments as per their requirement for different developmental works of the State.

8. It is admitted that growth in capital expenditure is an indicator of success. As a consequence of the improvement in the fiscal situation of the State during last few years our capital expenditure has increased. While, the capital expenditure was only at Rs. 799.00 crore in the financial year 1999-2000, it reached the level of Rs.1451.47 crore during the financial year 2006-07. Similarly, while the capital expenditure was at Rs. 2843.41 crore during the Financial Year 2007-08, it is estimated at Rs. 3259.62 in the Revised Estimate for 2008-09 and 3594.33 crore in the Budget Estimate for 2009-10.

9. As you know, the plan size of the State has been fixed at Rs. 9500.00 crore for the Financial Year 2009-10. This is more than two and half times of the plan outlay of Rs.3250.00 crore of the State for 2004-05. This increase in the plan size of the State during last 5 years will definitely boost the economic development of the State.

10. The State Government have introduced Revised Salary and Pension on the recommendations of the 6th Pay Commission for Government employees and pensioners with effect from 1st January, 2006. More than 4 lakh Government employees and 2.49 lakh pensioners have been benefited by this. Provision has been made in the current year's budget for the teachers working in the Colleges and Universities of the State for payment of revised salary as per U.G.C. recommendations and also for payment of revised salary for judicial officers of the State.

11. Another significant achievement of the State Government is that the debt stock of the State had been reduced after a long gap of 61 years. It is worth mentioning that while the debt continuously increased and was Rs. 37249.51 crore at the end of the Financial Year 2006-07, it came down to Rs. 36311.61 crore at the end of the Financial Year 2007-08. As per the mandate of the 12th Finance Commission, the interest payment should be contained within 15% of revenue receipts. Viewing it from that angle this has come down to 14.43% in our State at the end of 2007-08.

12. Due to the success achieved in the fiscal front, the State Government has been receiving debt relief from the Central Government continuously from the financial year 2005-06 till 2008-09 at the rate of Rs. 381.90 crore per annum. It is expected that the same amount of debt relief will be received during the financial year 2009-10.

13. You are aware that the global economic recession has affected the world economy. In this context it is apprehended that State's revenue generation efforts may be adversely impacted. There is already decline in collection of State's Own Tax, Non-tax and share in Central Taxes from the beginning of the current Financial Year. In order to arrest this, it is indispensable to take strong steps for generation of more revenue as well as curtailment of unnecessary expenditures.

14. Despite limited resources, the State Government have made necessary provision in different sectors keeping in view the expectations of the people from a transparent and responsible Government in a democratic and welfare State. Government is committed for the fulfillment of the basic needs of the people like, electricity, road, water, land, agriculture, industry and infrastructure. Out of own resources the State Government have provided requisite allocation for "Mo Kudia Yojana", "Madhu Babu Pension Yojana", "Biju K.B.K Yojana", "Gopabandhu Gramin Yojana", "Biju Gramayoti Yojana" "provision of rice @ Rs. 2 per Kg." " Critical maintenance of irrigations projects" and for other essential schemes.

15. Taking in to account the State's own tax, Non-Tax, Share from Central Taxes and Grant- in- Aid from the Centre the total Revenue Receipt has been estimated at Rs. 26550.09 crore and revenue expenditure has been estimated at Rs.28919.19 crore during the Financial Year 2009-10. Hence, revenue deficit is estimated to be Rs.2369.10 crore. On the other hand, in the Capital account, the estimated expenditure would be less than Rs.544.07

crore compared to receipts. In toto the deficit in the Consolidated Fund has been estimated at Rs.1825.03 crore taking both Revenue Account and Capital Account into consideration and an equal amount has been estimated as surplus in the Public Account. On the whole, the receipts and expenditure have been balanced taking into account the Revenue Account, Capital Account and Public Account together. Thus, it is a balanced budget with revenue deficit.

16. His Excellency, the Governor has already indicated the achievements of the State Government in different sectors alongwith the proposed action to be taken in the coming days. I do not want to bother you by repeating the same. Now I want to highlight the provisions made in some important Plan and Non-Plan sectors.

Agriculture Department

- ∅ Ours economy is agriculture based. Hence, the State Government is all along committed to the development of agriculture and the farmers. We shall have to increase the pace of development in agriculture, co-operation, fisheries and animal resources sectors for speedy progress of the State.
